WHAT IS ADRENAL REVIVE?

Adrenal Revive is made from all natural ingredients designed to restore your body to its core level of vitality. Don't think that being tired is the curse of getting older. You can have the young and vibrant feeling after using Adrenal Revive on a regular basis. You can either take it twice a day, or since it's a liquid, you might also want to put some in your water that you drink all day long so that it will be working for you around the clock—reducing the negative effects of stress. Cortisol, which is the stress hormone, breaks down tissues and

muscles so that you can get quick energy and run from danger. Your body uses cortisol from the adrenal glands (attached to your kidneys) to break down the body for quick energy. Being scared, or shocked or in an accident creates that same reaction. If after a shock you don't go out and run (like you would run from a chasing bear) to use up the cortisol, then the cortisol stays in the body and creates big problems. It will increase inflammation, cause pain, and can create headaches.

What Is Cortisol?

Cortisol is a steroid hormone made in the adrenal glands, which are small glands adjacent to the kidneys. Cortisol is released in the body during stress; hence it is called the "stress hormone." But cortisol is more than a simple marker of stress levels - it is necessary for the function of almost every part of the body.

Cortisol is synthesized from cholesterol and acts through specific intracellular receptors to affect numerous physiologic systems including immune function, glucose counter regulation, vascular tone, and bone metabolism. Excess production of cortisol is on the rise in today's world because the level of stress in modern society is on-going and increasing.

So in turn, weight gain is also on the rise in part due to increasing stress. Suppressing cortisol by using drugs is not the solution, nonetheless - decreasing stress, exercising regularly, eating correctly, and balancing the entire hormonal system is the answer to a 'hormonally-related' weight gain. Weight gain from stress is due to an overall effect on the human body. We must look at the body as a whole in harmony. Adrenal Revive is geared towards balancing stress, as well as cortisol levels. When this is done we have increased levels of energy, minimum stress, lower cholesterol levels, and even proper weight balance due to all hormones being in harmony. The key factor to remember is we need balance within the body not suppression.

ADRENAL REVIVE'S FORMULA IS CLINICALLY TESTED AND FORMULATED TO MAXIMIZE YOUR BODY'S POTENTIAL TO COMBAT STRESS, AND RESTORE ADRENAL LEVELS, WHILE BALANCING CORTISOL.

Standard products today only effect the physical aspect. Health and harmony created Multidimensional products to address not only physical, but spiritual, mental, and emotional levels as well.

Deepak Chropra said that the greatest pharmacy is between a person's two ears (the brain) and as such the inner intelligence of the body, which maintains equilibrium in all systems, can be influenced by thought, speech, beliefs, and attitudes. Higher vibrational thought such as thoughts about higher purposes in life, doing good to others, loving others is a spiritual aspect of vibration. When we live in an inner environment of love, grace, peace, and forgiveness, we will be healthier and happier. Multidimensional products encourage higher vibrational influences to aid the body, emotions, mind, spirit, and soul. The animating force of life, inner intelligence has an affinity for higher purposes and a desire to be in equilibrium or balance. Experience has shown that by addressing the inner-intelligence of the body, the healing effect is heightened with fewer complications. Our products work with the body to encourage its natural processes in the order that the body would like them to be addressed.
