## (C-23) Master Cell Rejuvenator

Anti-Aging, Hormone Balance And Immunity!

### WHAT IS MASTER CELL REJUVENATOR?

Master Cell Rejuvenator is unlike any other product on the market due to its anti-aging benefits. With over eighty different ayurvedic and Korean herbs this products key benefits are anti-aging, hormonal balance, and overall harmony. Health and Harmony created the Celicore line to activate stem cells for specific organs within the body. Stem cells are undifferentiated and they are distributed throughout the body. Stem cells can become any type of cell once they are activated or "coded" to become one. Once a stem cell begins development, it will begin to divide and create more stem cells as well as cell specific

tissues that will then be sent to the area in the body that they were coded for. Celicore Stem Cell Activators take advantage of the endogenous stem cells that everyone has. This is a very unique and powerful concept: activate the cells within the same body that needs healing. Master Cell Rejuvenator was created to provide the nutrients to the stem cells within the body. We call this micro nutrition which is used to feed specific stem cells you are targeting (ex. Liver, kidney, etc.). Taken by itself it is an overall rejuvenator for every cell within the body. Try Master Cell Rejuvenator today and see the difference yourself!

### Stablized DHLA

DHLA (dihydrolipoic acid) is unique as an antioxidant due to its spectacular effectiveness in quenching every known free radical that occurs in living tissue, including both fat and water soluble tissues. No other antioxidant has this incredible capability. DHLA is readily absorbed orally and has very low toxicity. It has unequalled potential as a highly effective therapeutic agent in clinical conditions associated with free radical damage such as Parkinson's disease, Alzheimer's disease and other neurodegenerative illnesses.

### Proper Nutrition

Stem cells have the remarkable potential to develop into many different cell types in the body. Serving as a sort of repair system for the body, they can theoretically divide without limit to replenish other cells as long as the person is still alive. When a stem cell divides, each new cell has the potential to either remain a stem cell or become another type of cell with a more specialized function, such as a muscle cell, a red blood cell, or a brain cell. For proper support of this process C-23 also contains essential fatty acids and omega fatty acids. So that every cell in the body is provided optimal nutrition.

# Korean & Ayurvedic Herbs

We use an herbal tonic that helps maintain youthfulness by renewing tissues and counterattacking degeneration. Although composed of more than 40 herbs, it is considered a single entity and is the best known herbal compound in Ayurveda. For centuries, it has been the cornerstone of an all-around health optimization regimen. Its adaptogenic properties make it an excellent anti-aging and anti-stress tonic. It is a complex herbal concentrate that has been the geriatric tonic par excellence for centuries. Although composed of 40 herbs, it contains a large percentage of Amalaki (*Emblica Officinalis* or *Indian Gooseberry*), a very strong rejuvenative and a very rich natural source of Vitamin C.

## Hormone Production

We have also included a breakthrough formula that incorporates 29 of the most time-tested botanicals and phytonutrients. It supports every aspect of both the male and female reproductive systems including the brain and circulation, particularly the penis, uterus, adrenal glands and pituitary gland. Health and Harmony uses beneficial probiotic micro-organisms that possess the unique ability to metabolize the broad range of these nutrients into cell-resonant nano-molecules. This means a full liberation of the phytonutrient factors are broken down into tiny particles. This technology allows the nutrients to become extraordinarily biologically available, outdoing all other delivery systems. It not only supports, nourishes and boosts hormone production, but is 100% safe.

*We at Health and Harmony work day and night in order to ensure that you wake up in a world where you never hear the words, "There is no cure."*

It, an excellent rejuvenative, nourishes and strengthens the body, providing energy and vitality. We have also added the Korean Formula as well.

The Korean Formula (Chyavanprash) we use is an exceptional formula that was from an ancient Korean medical text that stated those who took this formula daily for 27 years would live for 360 years and if taken daily for 64 years, would live to 500. We only use grade 10 quality when making our Master Cell Rejuvenator. Many companies use US made chyavanprash which is grade 1 quality. This powerful free radical scavenger is based on the ancient Korean formula, which has a 5,000 plus year proven track record.

## (Unoxidized) CoQ-10

Also included is a Fully reduced (unoxidized) CoQ-10, known as ubiquinol, immediately available for maximum cell energy boosting. Derived from living, natural sources, it can significantly help recover cells that are in a low-energy tailspin. This means that it can help (unlike CoQ-10) to overcome low cell energy often seen in runaway neurotransmitter hyperactivity and unchecked free radical production, which is so often the case in many chronic health concerns. It can also increase cellular detoxification of heavy metals and other toxic chemicals. This source provides immediate results (often felt in seconds) as well as substantial, long-term benefits for the immune system, heart and circulation, healthy blood pressure, nervous system, brain function, anti-aging and spectacular energy and detoxification boosting.

***("C-23) Is The Strongest Anti-Aging Product On The Market Today!"***

Standard products today only effect the physical aspect. Health and harmony created Multidimensional products to address not only physical, but spiritual, mental, and emotional levels as well.

Deepak Chopra said that the greatest pharmacy is between a person's two ears (the brain) and as such the inner intelligence of the body, which maintains equilibrium in all systems, can be influenced by thought, speech, beliefs, and attitudes. Higher vibrational thought such as thoughts about higher purposes in life, doing good to others, loving others is a spiritual aspect of vibration. When we live in an inner environment of love, grace, peace, and forgiveness, we will be healthier and happier. Multidimensional products encourage higher vibrational influences to aid the body, emotions, mind, spirit, and soul. The animating force of life, inner intelligence has an affinity for higher purposes and a desire to be in equilibrium or balance. Experience has shown that by addressing the inner-intelligence of the body, the healing effect is heightened with fewer complications. Our products work with the body to encourage its natural processes in the order that the body would like them to be addressed.
